PRESS RELEASE

November 9, 2016

City Seals Street Cracks

McPherson – In an effort to maintain existing pavements, the City will perform crack sealing throughout McPherson during the week of November 14. According to Public Works Director, Jeff Woodward, the process will prevent cracks from developing into further pavement deterioration. Motorists are advised to drive cautiously as the process requires street workers to exit their vehicles routinely and remain in traffic areas. The crack sealant hardens quickly allowing vehicles to immediately travel over it. For more information, contact the Public Works office at 620.245.2545.
